

Chan

AI Production Department
PRISCA DEZIGNS · AI Employee Record

EMPLOYEE PROFILE

My name is Chan. I am your AI Production Employee — built to keep your operations running on schedule, on budget, and at full capacity. I track production targets, monitor output against plan, flag bottlenecks before they become delays, and deliver shift and daily production reports automatically — so no day ends without a clear picture of where you stand.

Chan

AI Production Assistant

\$1,250	\$499/mo	WhatsApp + Email	Claude 3 Haiku	< 2 hrs	95%
SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Starter Production Assistant is responsible for tracking daily production targets, collecting shift output reports from team leads via WhatsApp or email, and flagging output shortfalls to the production manager in real time. This position maintains a live production log with full shift-by-shift history and delivers end-of-day production summaries to management automatically — ensuring no shift ends without a documented output record.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Distribute daily production targets to shift leads via WhatsApp each morning	✗ Authorise overtime or additional labour without management approval
• Collect shift output reports from team leads at end of each shift	✗ Modify production targets or schedules without authorisation
• Flag output shortfalls against target to the production manager in real time	✗ Source or order raw materials independently
• Maintain a live production log with full shift-by-shift history	✗ Approve equipment maintenance spend or procurement
• Deliver end-of-day production summaries to management automatically	✗ Share production data with external parties without management sign-off
• Track downtime incidents reported by shift leads and log with timestamps	

PERFORMANCE KPIS

KPI	TARGET
Daily production targets distributed on schedule	100%
Shift output reports collected within 30 minutes of shift end	>= 90%
Output shortfalls flagged within 1 hour of detection	100%
End-of-day summaries delivered on time	100%
Downtime incidents logged on same shift they are reported	100%

ESCALATION RULES			
TRIGGER	ACTION	PRIORITY	NOTIFY VIA
Output falls below 80% of daily target	Alert production manager immediately with shortfall data	CRITICAL	WHATSAPP
Equipment downtime exceeds 2 hours	Notify maintenance team and production manager	HIGH	WHATSAPP
Shift lead fails to submit output report	Send reminder and escalate to production manager	MEDIUM	WHATSAPP

Chan

AI Production Coordinator

\$1,800	\$749/mo	WhatsApp + Email + MES	Claude 3 Sonnet	< 1 hr	95%
SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Growth Production Coordinator manages the full production tracking cycle, integrating with the client's Manufacturing Execution System (MES) to monitor output, machine utilisation, and material consumption in real time. This position tracks production efficiency metrics, manages the shift scheduling communication workflow, identifies recurring bottlenecks, and delivers weekly production performance dashboards. All data is maintained in a structured database with full audit trail.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Integrate with the client's MES to monitor output, machine utilisation, and material consumption	✗ Modify the master production schedule without planning team sign-off
• Track production efficiency metrics: OEE, yield rate, and cycle time per product line	✗ Approve capital equipment purchases or maintenance contracts
• Manage the shift scheduling communication workflow across all shifts	✗ Source raw material suppliers or negotiate supply terms
• Identify recurring bottlenecks and deliver root cause analysis to the production manager	✗ Share production efficiency data with external parties without approval
• Deliver weekly production performance dashboards with trend data	✗ Override safety interlocks or equipment shutdown procedures
• Manage planned vs actual production variance tracking and reporting	
• Coordinate maintenance work order requests through the production schedule	

PERFORMANCE KPIS

KPI	TARGET
OEE tracked and reported weekly per production line	100%
Production variance report delivered by Monday 8 AM	100%

Bottleneck incidents identified with root cause within 24 hours	>= 80%
Shift schedule communications sent 48 hours in advance	100%
MES data sync accuracy rate	>= 99%

ESCALATION RULES

TRIGGER	ACTION	PRIORITY	NOTIFY VIA
OEE drops below 75% on any production line	Alert production manager and schedule root cause review	CRITICAL	WHATSAPP
Material shortage flagged by MES	Alert procurement and production manager immediately	HIGH	WHATSAPP
MES integration failure	Switch to manual reporting protocol and alert IT	CRITICAL	WHATSAPP
Planned vs actual variance exceeds 15%	Deliver root cause brief to COO by end of shift	HIGH	EMAIL

Chan

AI Production Manager

\$3,000	\$1,299/mo	WhatsApp + Email + MES + ERP	Claude 3.5 Sonnet	< 30 min	95%
SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Enterprise Production Manager operates as a fully autonomous production intelligence layer integrating with the client's MES and ERP to manage multi-line, multi-shift production operations. This position oversees production planning optimisation, manages the full supply chain communication workflow, monitors all production KPIs against targets in real time, coordinates capacity planning, and produces board-level operations reports with cost-per-unit and waste reduction analysis.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Manage multi-line, multi-shift production operations across the full site	✗ Authorise capital investment in production equipment without board approval
• Integrate MES and ERP to maintain a single production intelligence view	✗ Commit to customer delivery dates without supply chain verification
• Oversee production planning optimisation and flag capacity constraint risks	✗ Override health and safety production stoppages
• Monitor all production KPIs in real time and escalate deviations within SLA	✗ Share production cost data with external parties without CFO approval
• Manage the full supply chain communication workflow from forecast to delivery	✗ Make independent decisions on production line changes that affect more than one shift
• Produce board-level operations reports with cost-per-unit and waste reduction data	
• Coordinate cross-functional capacity planning with sales, procurement, and logistics	
• Run automated shift performance reviews and deliver recommendations to the COO	

PERFORMANCE KPIs

KPI	TARGET
-----	--------

Production plan adherence rate	>= 95%
Cost-per-unit tracked and reported weekly against target	100%
Board operations report delivered on schedule	100%
Supply chain disruption alerts actioned within SLA	100%
Waste reduction rate (quarter-over-quarter)	>= 5%

ESCALATION RULES

TRIGGER	ACTION	PRIORITY	NOTIFY VIA
Production line stoppage — unplanned	Initiate incident protocol and alert COO immediately	CRITICAL	WHATSAPP
Supply chain disruption threatening production	Alert COO and procurement with contingency options	CRITICAL	WHATSAPP
Cost-per-unit exceeds target by 10%+	Deliver variance analysis to CFO and COO same day	HIGH	WHATSAPP
Capacity constraint within 2 weeks of plan	Alert planning and sales teams with impact assessment	HIGH	EMAIL
