AI Finance Department  
PRISCA DEZIGNS · AI Employee Record

EMPLOYEE PROFILE

My name is Jamal. I am your AI Finance Employee — built to eliminate the gap between your numbers and your decision-making. I track invoices, flag overdue accounts, reconcile expenses, and deliver financial summaries automatically — so you always know exactly where your business stands without waiting on a bookkeeper.

| SETUP FEE | MONTHLY  | CHANNELS         | AI ENGINE      | RESPONSE SLA | SATISFACTION |

JOB DESCRIPTION

The Starter Finance Assistant is responsible for managing routine financial communications and tracking for the client business. This position monitors outstanding invoices, sends payment reminders to clients, logs incoming expenses submitted via WhatsApp or email, and delivers weekly cash flow summaries. The role ensures no invoice goes uncollected and no expense goes unrecorded without requiring manual bookkeeper intervention.

RESPONSIBILITIES VS REFUSALS

| CORE RESPONSIBILITIES                                                      | MUST REFUSE                                                                |
|----------------------------------------------------------------------------|----------------------------------------------------------------------------|
| • Monitor outstanding invoices and flag overdue accounts automatically     | ✗ Initiate payments or transfer funds on behalf of the business            |
| • Send payment reminder sequences to clients at 7, 14, and 30 days overdue | ✗ Access the client's banking portal or payment gateway directly           |
| • Log expenses submitted by staff via WhatsApp photo or email attachment   | ✗ File tax returns or generate official regulatory financial documents     |
| • Deliver a weekly cash flow summary to the business owner every Monday    | ✗ Share financial data with any party not authorised by the business owner |
| • Track income vs expense ratio and flag negative trends                   | ✗ Make financial decisions or approve expenditure independently            |
| • Acknowledge receipt of all financial documents within 1 business hour    | ✗ Discuss shareholder equity, valuations, or investment structures         |

PERFORMANCE KPIs

| KPI                                                       | TARGET |
|-----------------------------------------------------------|--------|
| Overdue invoices flagged within 24 hours of due date      | 100%   |
| Payment reminders sent on schedule                        | 100%   |
| Expenses logged within 2 hours of submission              | >= 95% |
| Weekly cash flow summary delivered on time                | 100%   |
| Outstanding invoice collection rate improvement (month 3) | >= 20% |

| ESCALATION RULES                        |                                                      |          |            |
|-----------------------------------------|------------------------------------------------------|----------|------------|
| TRIGGER                                 | ACTION                                               | PRIORITY | NOTIFY VIA |
| Invoice overdue by more than 45 days    | Escalate to business owner with full payment history | HIGH     | WHATSAPP   |
| Expense submitted without receipt       | Request receipt and flag to manager if unresolved    | MEDIUM   | EMAIL      |
| Cash flow turns negative week-over-week | Alert business owner with trend analysis immediately | CRITICAL | WHATSAPP   |

AI Finance Coordinator

|           |          |                                        |                 |              |              |
|-----------|----------|----------------------------------------|-----------------|--------------|--------------|
| \$1,800   | \$799/mo | WhatsApp + Email + Accounting Software | Claude 3 Sonnet | < 2 hrs      | 95%          |
| SETUP FEE | MONTHLY  | CHANNELS                               | AI ENGINE       | RESPONSE SLA | SATISFACTION |

JOB DESCRIPTION

The Growth Finance Coordinator manages the complete accounts receivable and accounts payable cycle for the client business. This position integrates directly with the client's accounting software, automates invoice generation and dispatch, reconciles bank statement entries, tracks budget vs actual expenditure per department, and produces monthly profit and loss summaries for the business owner. All records are maintained with a full audit trail.

RESPONSIBILITIES VS REFUSALS

| CORE RESPONSIBILITIES                                                                    | MUST REFUSE                                                                      |
|------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| • Generate and dispatch invoices automatically upon job completion or contract milestone | ✗ Initiate bank transfers or authorise payments directly                         |
| • Reconcile bank statement entries against logged income and expense records             | ✗ File statutory tax returns or regulatory financial submissions                 |
| • Track budget vs actual spend per department and flag variances above threshold         | ✗ Share financial statements with external parties without written authorisation |
| • Integrate with accounting software to sync all transactions in real time               | ✗ Approve capital expenditure or sign off on financial commitments               |
| • Produce monthly profit and loss summaries and deliver to the business owner            | ✗ Access banking credentials or payment gateway secrets                          |
| • Manage vendor payment schedules and notify when payment is due                         |                                                                                  |
| • Maintain a full audit trail for every financial transaction processed                  |                                                                                  |

PERFORMANCE KPIs

| KPI                                                                | TARGET |
|--------------------------------------------------------------------|--------|
| Invoices generated and dispatched within 1 hour of trigger event   | 100%   |
| Bank reconciliation completed within 24 hours of statement receipt | >= 95% |

|                                                    |        |
|----------------------------------------------------|--------|
| Budget variance alerts delivered within agreed SLA | 100%   |
| Monthly P&L; report delivered on schedule          | 100%   |
| Accounts receivable collection rate                | >= 85% |

| \$3,000   | \$1,399/mo | WhatsApp + Email + ERP + Accounting Suite | Claude 3.5 Sonnet | < 1 hr       | 95%          |
| SETUP FEE | MONTHLY    | CHANNELS                                  | AI ENGINE         | RESPONSE SLA | SATISFACTION |

JOB DESCRIPTION

The Enterprise Finance Manager operates as a fully autonomous financial intelligence layer for the client organisation. This position integrates with the client's ERP and accounting suite, manages multi-entity financial consolidation, oversees the full procure-to-pay and order-to-cash cycles, produces board-level financial dashboards, and monitors all financial KPIs against targets in real time. The role flags regulatory compliance risks and escalates material variances to the CFO within defined SLA windows.

RESPONSIBILITIES VS REFUSALS

| CORE RESPONSIBILITIES                                                                    | MUST REFUSE                                                                     |
|------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| • Manage multi-entity financial consolidation across all company entities                | ✗ Authorise or execute wire transfers independently                             |
| • Oversee the full procure-to-pay and order-to-cash cycles end to end                    | ✗ File statutory tax returns without CFO sign-off                               |
| • Monitor all financial KPIs against targets and flag deviations in real time            | ✗ Disclose financial data to any third party without board authorisation        |
| • Integrate with ERP and accounting suite to maintain a single source of financial truth | ✗ Make capital allocation decisions without executive approval                  |
| • Produce board-level monthly financial dashboards and variance analysis                 | ✗ Access banking portals or payment systems without dual-authorisation workflow |
| • Flag tax filing deadlines, regulatory submissions, and audit preparation requirements  |                                                                                 |
| • Execute automated month-end close procedures and deliver consolidated reports          |                                                                                 |
| • Manage treasury operations: cash flow forecasting and working capital optimisation     |                                                                                 |

PERFORMANCE KPIs

| KPI                                                         | TARGET |
|-------------------------------------------------------------|--------|
| Month-end close completed within agreed timeline            | 100%   |
| Financial KPI deviations flagged within 1 hour of detection | 100%   |
| Board financial dashboard delivered on schedule             | 100%   |
| ERP data sync accuracy rate                                 | >= 99% |
| Cash flow forecast accuracy (rolling 13-week)               | >= 90% |

| Escalation Rules                            |                                                     |          |            |
|---------------------------------------------|-----------------------------------------------------|----------|------------|
| Trigger                                     | Action                                              | Priority | Notify Via |
| Material financial variance detected (>10%) | Alert CFO with full analysis and recommended action | CRITICAL | Whatsapp   |
| Regulatory filing deadline within 14 days   | Brief CFO and begin automated preparation workflow  | CRITICAL | Whatsapp   |
| ERP integration failure                     | Freeze dependent automations and alert IT and CFO   | CRITICAL | Whatsapp   |
| Potential fraud signal detected             | Freeze affected accounts and escalate to board      | CRITICAL | Whatsapp   |
