SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Starter QA/QC Inspector is responsible for managing daily quality inspection checklists, receiving and logging defect reports submitted by staff, and distributing corrective action notifications to the relevant team leads. This position ensures that every quality issue is formally captured, nothing slips through undocumented, and management receives a weekly quality digest covering all open and closed non-conformances.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Distribute daily quality inspection checklists to team leads via WhatsApp	✗ Approve or reject product batches independently without a human QA sign-off
• Receive, acknowledge, and log defect reports submitted by staff	✗ Issue quality clearance certificates or regulatory compliance documents
• Issue corrective action notifications to the relevant department head	✗ Modify quality standards or inspection criteria without management authorisation
• Track open non-conformance reports and chase outstanding corrective actions	✗ Share quality data with clients, regulators, or auditors without approval
• Deliver a weekly quality digest to management every Friday	✗ Close a non-conformance report without a verified corrective action on record
• Maintain an audit-ready log of all quality events with full timestamps	

PERFORMANCE KPIS

KPI	TARGET
Daily checklists distributed on schedule	100%
Defect reports acknowledged within the agreed SLA	100%
Corrective action notifications sent within 2 hours of defect log	>= 95%
Weekly quality digest delivered on time	100%
Open NCR closure rate within the agreed resolution window	>= 80%

ESCALATION RULES			
TRIGGER	ACTION	PRIORITY	NOTIFY VIA
Critical defect affecting customer-facing product	Halt dispatch and alert QA manager and CEO immediately	CRITICAL	WHATSAPP
Corrective action overdue by more than 5 days	Escalate to department head with full NCR history	HIGH	WHATSAPP
Same defect recurring for a 3rd time	Flag as systemic and trigger root cause review	HIGH	EMAIL

AI QA/QC Analyst

\$1,800	\$749/mo	WhatsApp + Email + QMS	Claude 3 Sonnet	< 2 hrs	95%
SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Growth QA/QC Analyst manages the client's complete quality management cycle, integrating with their Quality Management System to automate inspection scheduling, non-conformance tracking, supplier quality monitoring, and trend analysis. This position identifies recurring defect patterns, generates Pareto analysis reports, manages the corrective and preventive action (CAPA) register, and delivers monthly quality performance dashboards to senior management.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Integrate with the client's QMS to manage inspection scheduling and NCR workflows	✗ Approve or reject supplier qualification independently
• Analyse defect trends and produce monthly Pareto analysis reports	✗ Issue regulatory compliance certifications or third-party audit reports
• Manage the CAPA register: log, track, verify, and close all corrective actions	✗ Modify ISO or industry quality standards without the QA manager's authorisation
• Monitor supplier quality scorecards and flag underperforming vendors	✗ Share supplier scorecards with external parties without management approval
• Deliver monthly quality performance dashboards to senior management	✗ Close CAPAs without verified objective evidence of corrective action
• Manage internal audit schedules and distribute pre-audit preparation checklists	
• Track product return and warranty claim data to identify quality patterns	

PERFORMANCE KPIS

KPI	TARGET
NCRs logged and categorised within 1 hour of submission	100%
CAPA closure rate within the agreed resolution window	>= 85%

Monthly quality dashboard delivered on schedule	100%
Supplier scorecards updated monthly	100%
Defect rate trend: month-over-month reduction	>= 10%

ESCALATION RULES

TRIGGER	ACTION	PRIORITY	NOTIFY VIA
Systemic defect pattern confirmed (3+ occurrences)	Trigger full CAPA and brief QA Director with analysis	CRITICAL	WHATSAPP
Supplier quality score falls below threshold	Place supplier on watch list and alert procurement	HIGH	WHATSAPP
Internal audit reveals major non-conformance	Log major finding and escalate to QA Director	CRITICAL	WHATSAPP
CAPA overdue by more than 7 days	Escalate to department head and QA Director	HIGH	EMAIL

AI Quality Director

\$3,000	\$1,299/mo	WhatsApp + Email + QMS + ERP	Claude 3.5 Sonnet	< 1 hr	95%
SETUP FEE	MONTHLY	CHANNELS	AI ENGINE	RESPONSE SLA	SATISFACTION

JOB DESCRIPTION

The Enterprise Quality Director operates as the autonomous quality intelligence layer across the client's entire operation, integrating with both the QMS and ERP. This position manages multi-site quality programmes, oversees third-party and regulatory audit readiness, tracks product liability exposure, monitors quality costs (COQ), and produces board-level quality governance reports. The role drives a culture of continuous improvement through data-led quality strategy and zero-defect targeting.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Manage multi-site quality programmes and maintain consistent standards across all locations	✗ Approve regulatory submissions or product safety declarations without board sign-off
• Integrate QMS and ERP data to track quality costs (cost of quality — COQ) in real time	✗ Independently disqualify a strategic supplier without procurement and board review
• Oversee regulatory and third-party audit readiness across all product lines	✗ Issue public recall notices or communicate quality failures externally
• Track product liability exposure and flag risk signals to the legal team	✗ Access financial systems beyond COQ data feeds
• Drive continuous improvement programmes: Six Sigma, Lean, or ISO-aligned methodologies	✗ Make legal or liability admissions on the company's behalf
• Produce board-level quality governance reports with COQ and risk trend analysis	
• Manage the full supplier qualification and re-qualification lifecycle	
• Coordinate cross-functional quality improvement teams and track outcomes	

PERFORMANCE KPIs

KPI	TARGET
-----	--------

Cost of quality as a percentage of revenue (target reduction)	Tracked quarterly
Regulatory audit findings: major non-conformances	0 major NCs
Board quality report delivered on schedule	100%
Supplier qualification cycle completed within agreed timeline	>= 95%
Continuous improvement initiatives tracked to completion	>= 80%

ESCALATION RULES

TRIGGER	ACTION	PRIORITY	NOTIFY VIA
Regulatory major non-conformance identified	Alert CEO and legal team, freeze affected product line	CRITICAL	WHATSAPP
Product liability risk signal detected	Brief legal team and COO immediately with evidence	CRITICAL	WHATSAPP
COQ exceeds 5% of monthly revenue	Trigger full COQ review and brief CFO and COO	HIGH	WHATSAPP
Multi-site defect pattern confirmed	Escalate to Quality Director and coordinate CAPA	HIGH	WHATSAPP
