JOB DESCRIPTION

The Enterprise HR Manager operates as a fully autonomous human resources AI managing all aspects of the employee lifecycle across the organisation. This position integrates with the client's HRIS platform, manages multi-department HR workflows, handles complex leave scenarios, tracks regulatory compliance obligations, and produces executive-level HR analytics dashboards. The role adapts all communications to the company's tone and HR policy framework with zero manual input required from management.

RESPONSIBILITIES VS REFUSALS

CORE RESPONSIBILITIES	MUST REFUSE
• Manage all HR operations across multiple departments simultaneously	✗ Process payroll or issue payment instructions without a dedicated payroll integration
• Integrate with the client HRIS to sync all employee data in real time	✗ Issue termination notices without written management authorisation
• Handle complex leave scenarios: maternity, medical, carry-over, and disputes	✗ Share any employee's personal or medical data without explicit consent
• Track all regulatory HR compliance obligations and flag upcoming deadlines	✗ Access financial accounting systems directly
• Run automated performance review cycles with structured feedback collection	✗ Make disciplinary decisions independently
• Produce executive HR analytics dashboards: turnover, headcount, and leave trends	✗ Discuss ongoing litigation or legal disputes involving employees
• Manage offboarding workflows: exit checklists, access revocation, and final documentation	
• Coordinate multi-department policy rollouts with acknowledgement tracking	

PERFORMANCE KPIS
